- Prove to have at least 5 years' experience as a Project Manager in construction
- Possess a driver's license in good standing
- Be able to travel throughout Ontario
- Oversee and be responsible for all aspects of the construction project
- Accept the leadership role of a Project Manager and implement those skills with little supervision
- Be able to show excellent knowledge of construction terms, processes and methods
- Have excellent time management skills and be responsible for several projects at one time
- Have a complete understanding and ability to read and implement project drawings and specifications
- Possess strong technology skills and be able to use modern technology
- Show competence with various Project Management software programs and MS Office products
- Be willing to adapt to existing protocol and procedures
- Work closely with the Accounting Department to produce project billings
- Understand, negotiate and award subcontracts
- Show competence, resistance and professionalism with conflict resolution
- Meet and conduct discussions with owners, engineers and other project team members with the utmost respect and professionalism
- Conduct site tours, safety inspections and lead by example to ensure policies, procedures and standards are adhered to
- Chair and minute owner's/ owner's reps meetings as well as consultant meetings
- Oversee project closeouts and other administrative documents
- Liaise/coordinate with municipalities and utility companies
- Be able to "think outside the box" with respect to construction practices, be proactive instead of reactive and resolve issues efficiently and effectively
